DESIGNED FOR

MEQU Power Packs

FUNCTIONCord protection
and support

PROTECT THE CONNECTION. PROTECT THE POWER PACK.

The Power Pack Cradle is designed to support the MEQU Power Pack and help protect the cord where it exits the unit. Its shaped channel reduces direct exposure of the cord and connector area during handling, storage and operational use.

PURPOSE-BUILT

Designed around the MEQU Power Pack profile.

CORD SUPPORT

Shaped to support the cord exit and connector area.

LOW WEIGHT

Adds only 40 g to the equipment setup.

**SIMPLE.
LIGHT.
PROTECTIVE.**

A practical accessory for
protecting a critical part of your
MEQU Power Pack setup.
